

8 Newbury

8 NEWBURY

8 Newbury, a retail and office space located in Boston's premier retail district, requested bronze art deco paneling to help the building's historic character shine among its neighbors. We created 12 cast aluminum panels in our Tactile Metal™ bronze finish. The panels measure 6'6" wide (1981 mm) by 3'0" (914 mm) tall.

ARCHITECT: Bargmann Hendrie + Archetype, Inc.
